About Sylvania Platinum Limited

Sylvania Platinum is a lower-cost producer of platinum group metals (PGMs) (platinum, palladium and rhodium) and chrome with operations located in South Africa. The Sylvania Dump Operations (SDO) is comprised of six chrome beneficiation and PGM processing plants focusing on the retreatment of PGM-rich chrome tailings materials from mines in the Bushveld Igneous Complex (BIC). The SDO is the largest PGM producer from chrome tailings re-treatment in the industry. In FY2023, the Company entered into the Thaba Joint Venture (Thaba JV), which comprises chrome beneficiation and PGM processing plants, and is treating a combination of run of mine (ROM) and historical chrome tailings from the JV partner, adding a full margin chromite concentrate revenue stream. The Group also holds mining rights for PGM projects in the Northern Limb of the BIC.
