## **About Sylvania Platinum Limited**

Sylvania Platinum is a lower-cost producer of platinum group metals (PGM) (*platinum, palladium and rhodium*) with operations located in South Africa. The Sylvania Dump Operations (SDO) comprises six chrome beneficiation and PGM processing plants focusing on the retreatment of PGM-rich chrome tailings materials from mines in the Bushveld Igneous Complex. The SDO is the largest PGM producer from chrome tailings re-treatment in the industry. Additionally, the Thaba JV comprises chrome beneficiation and PGM processing plants, which will treat a combination of run of mine (ROM) and historical chrome tailings from the JV partner, adding a full margin chromite concentrate revenue stream. The Group also holds mining rights for PGM projects in the Northern Limb of the Bushveld Complex.
